**APPROVAL OF AGREEMENT #09-C0017 WITH
CALIFORNIA DEPARTMENT OF PESTICIDE REGULATION
FOR COMPILING, REVIEW, AND SUBMITTAL OF PESTICIDE USE REPORTING TO
THE CALIFORNIA DEPARTMENT OF PESTICIDE REGULATION
(ALL DISTRICTS) (3-VOTES)**

SUBJECT

The Department of Agricultural Commissioner/Weights and Measures (ACWM) is responsible for enforcing pesticide use within Los Angeles County and reporting such pesticide use to the California Department of Pesticide Regulation (CPDR). The attached Agreement will facilitate this mandated program at no net county cost.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve and instruct the Agricultural Commissioner/Director of Weights and Measures (Commissioner) to sign the attached Agreement #09-C0017 with the CDPR in the amount of \$38,252.00 for one year, July 1, 2009 through June 30, 2010.
2. Authorize the Commissioner to amend the Agreement in an amount not to exceed 15 percent of the original contract and at no net county cost, subject to review and approval by County Counsel and the Chief Executive Office (CEO) and notification to the Board offices.

3. Delegate authority to the Commissioner to sign future substantially similar agreements with the CPDR for Pesticide Use Reporting for an amount not to exceed \$100,000 and at no net county cost, subject to review and approval by CEO and County Counsel and with notification to the Board offices.
4. Delegate authority to the Commissioner to amend future substantially similar agreements with the CPDR for Pesticide Use Reporting for a total agreement amount not to exceed \$100,000 and at no net county cost, upon review and approval by CEO and County Counsel and with notification to the Board offices.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:

The ACWM has been operating under this arrangement for the past 20 years. Approval of the recommended actions will enable the ACWM to continue to compile, review, and submit pesticide use records to CDPR. ACWM participation in this statewide program assists CDPR in its mission to protect human health and the environment by regulating pesticide sales and use.

IMPLEMENTATION OF STRATEGIC PLAN GOALS:

This agreement supports the Countywide Strategic Plan Goals of Operational Effectiveness and Public Safety. The pesticide use reporting program facilitates the systematic, timely, and automated submittal of pesticide use data critical to the work of ACWM and CDPR and serves to ensure the proper, safe, and efficient use of pesticides essential for production of food and fiber, to protect the environment, and to secure the health and safety of workers and the public.

FISCAL IMPACT/FINANCING:

Under this agreement, CDPR will provide funding in the amount of \$38,252 for pesticide use reporting performed by ACWM from July 1, 2009, through June 30, 2010. The revenues will fully offset the costs of the program, resulting in no net County cost.

FACTS AND PROVISIONAL/LEGAL REQUIREMENTS:

State law requires that any person who uses a pesticide for an agricultural use (as defined in California Food and Agricultural Code Section 11408) or any person engaged for hire in the business of pest control report the use of the pesticide(s) to the Commissioner of the County in which the pest control was performed. This Agreement allows ACWM to be reimbursed for reporting pesticide use in the County to CPDR, as required by law.

This Agreement is for the period of July 1, 2009 through June 30, 2010. Pesticide use reporting is an ongoing program to collect and process data on full use reporting of agricultural and structural pesticide applications per the Food Safety Act of 1989. Under full use reporting, certain pesticide uses are required to be reported to the County Agricultural Commissioner who, in turn, reports the data to CDPR. Delegated authority will allow the Commissioner to sign and amend future substantially similar agreements with CPDR for pesticide use reporting in a total amount less than \$100,000 for no net county cost, upon review and approval by CEO and County Counsel and with notification to the Board offices.

IMPACT ON CURRENT SERVICES:

The recommended Board action will support program services for the entire 2009-10 fiscal year.

Respectfully submitted,

SCOPE OF WORK

The Department of Pesticide Regulation's (DPR) mission is to protect human health and the environment by regulating pesticide sales and use, and by fostering reduced-risk pest management which is mandated under the California Food and Agricultural Code section 11501 sets forth the general purposes of the legal code that fundamentally authorizes the State's pesticide regulatory program:

- To provide for the proper, safe, and efficient use of pesticides essential for production of food and fiber and for protection of the public health and safety.
- To protect the environment from environmentally harmful pesticides by prohibiting, regulating, or ensuring proper stewardship of those pesticides.
- To assure agricultural and pest control workers of safe working conditions where pesticides are present.
- To permit agricultural pest control by competent and responsible licensees and permittees under strict control of the Department of Pesticide Regulation and the County Agricultural Commissioners.
- To assure consumers and users that pesticides are properly labeled and appropriate for the use designated by the label and that state or local governmental dissemination of information on pesticidal uses of any registered pesticide product is consistent with the uses for which the product is registered.
- To encourage the development and implementation of pest management systems, stressing application of biological and cultural pest control techniques with selective pesticides when necessary to achieve acceptable levels of control with the least possible harm to the public health, nontarget organisms, and the environment.

Pesticide use reporting is an ongoing program to collect and process data on full use reporting of agricultural and structural pesticide applications, per the Food Safety Act of 1989 (Chapter 1200, AB 2161). Under full use reporting, certain agricultural pesticide uses are required to be reported to the county agricultural commissioner (CAC), who, in turn, reports the data to DPR. DPR also collects reports from structural pest control businesses for pesticide use in schools. Full use reports include the amount and name of the pesticide applied, date and location (section, township, range) of the application, and, if the application was agricultural, the crop. The primary exceptions to the use reporting requirements are home and garden use, and most industrial and institutional use. The pesticide use reports are compiled by DPR and made available on disc and on DPR's Web site. DPR also provides support to the CACs on their administration of the computer systems and applications for the Restricted Material Permit Program, which is used to manage, track, and collect data for permits, operator identifications, and pesticide use reports.

Variable	Description and Coding Instructions
RECORD_ID	Document type to identify edit criteria for documents. For electronic data, Job Report (39-125/33/126x) is coded as type 'A' and Monthly Agricultural Summary (33-017) is coded as type 'B'.
PROCESS_DT	Month and Year document processed. This is the month the document is encoded and validated. Format is MMYYY.
BATCH_NO	Identify batched groups of documents for a particular month. Four digit code is divided into county number and a two-digit sequence number. This allows up to 100 batches to be processed each month for a county.
REPORT_MONTH	Month of application. This is optional for record type 'A' but is required for record type 'B'. this field and the next are keyed from the boxes for Month(1) and Year(2) on the 33-017.
REPORT_YEAR	Year of application. This is optional for record type 'A' but is required for record type 'B'.
COUNTY_CD	County code number. The assigned numeric code for the county.

The following fields refer to the location information on the Pesticide Use Report as Township/Range/Section (TRS) data.

SECTION	Section number in which pesticide was applied. This is a two-digit numeric field, range 1 - 36.
TOWNSHIP	Township number: two digits, range 1 - 43.
TSHIP_DIR	Single character direction indicator for township. Valid values are 'N' and 'S'.
RANGE	Range number: two digits, range 1 - 47.
RANGE_DIR	Single character direction indicator for range. Valid values are 'E' and 'W'.
